Trish Zylinsky

Creativity is "All in the Family" when it comes to local artist Patricia "Trish" Zylinski! She was born and raised in Gainesville and summered in Melrose at her parent's lake house. Trish is influenced by her strong family ties and a multigenerational "creative" gene. She remembers that mom and dad always made things. As a young girl, her biggest treat was going upstairs to play with grandma's treadle sewing machine. Sew naturally, Trish evolved to become a fabric artist! For Trish, utility is a very important element in her creations. She wants her clients to enjoy using her products to help them stay organized, keep food warm or in the case of her hand crafted journals- inspire their own literary urges. Trish and her husband ran a framing business in Gainesville for over 40 years. During this time, Trish enjoyed helping clients choose colors and designs that enhanced their art work. Today, her inspirations come from various sources including Pinterest. Come check out her totes, runners, bowl cozies and more at Mossman Hall.
